Dear Bush

Will you look in the post office and see if there is any thing there for me. A steamer from San Francisco is here now day before yesterday, called the Goliah if this word is spelled this way (any it was named from the man King David killed) two of the hands on board got into a fight and one had his nose badly bit and then afterwards got a knife and inflicted several severe wounds on the man who bit his nose. The recovery of the man who was cut with the knife is considered doubtful.

There is no news here Bryer I think is now trying to get up some sympathy for himself- is making out that he is persecuted.

He said (as I understand) in a public meeting held here last week that he wished he could be king of this country he would have better regulations about this town. But no one was heard to exclaim God save King Bryer so I suppose he has but a faint hope of being crowned. Henderson heard him say it. It is strange I dont get any letters from my school men. She must be sick dead married or-----

It is now reported here that Bryer is about to come out for the assembly- Antony S Davis (our Davis) is I understand appointed a Justice of the peace for this county, he has not yet got the certificate of his appointment but the Sheriff told me that he was at the Probate Court and that he is appointed, Judge Strong holds a court in this county at the time of the regular term,-----

I have been hard at work this week getting papers ready for court.

Yours in haste
