Friend Bush

Enclosed I send you another from Uncle Ned, just turned out from the mint. Judge Pratt and the Dr have been sitting by my side spelling out the records for the day, and to this you must attribute any little defects in composition. Before I send this in the morning I will make you out a calender of the causes and their disposition.

Judge Pratt requests me to say to you that he received your communication this evening, and is absorbed in his official duties as to be unable to attend to it at this time. I shall be here several days. Write to me. There are about 100 cases on the docket here. Success to the law.

Good night I must take a drink and go to moosum.
