Friend Bush

I just recd yours of tuesday night and have to say that you need fear nothing from the Whig importation getting a paper started here if it is really your intention and determination to start a paper here. Of which I no doubt And I am telling them here that it is a fact. And that as certain as you live you will be on writing your paper if legislation is to be done in this place. And all I've yet spoken to on the subject have declared to sustain you. You have the preference here and Salem will spare nothing to keep you alive. The Clerkship I think I shall be able to get if I wish it. And if there is a probability of a session I will make an effort to get it. I wish for various reasons to keep track of friends and to assist them if possible. And also to keep track who are not friends. Are the principals I've been so much engaged with business last 5 or 6 weeks that I've had no time to think of anything else. Am yet busy. When I've more time I will look round and tell you more.

Truly yours
