Dr. Sir,

Herewith you'll find a "nut" - It is the answer of "Custax or soda" to the letter which I sent you in Dec. with Mr. Mosis's Letter - "Oh tempora" &c By the way your paper containing that letter has never reached here, nor the one following - Within the last ten days much inquiry has been made for them -- Is there no chance to get them? - Your paper did not come in this mail - There's a "screw loose" somewhere - But to my object in writing this note - The Clatsop folks are about to raise h--l about the two paragraphs in "So-so's" paper concerning the wreck. The Clatsop people are honest & right & Dosens articles false & infamous- Don't let the "Times" lead you into the the matter - Wait and you'll hear all about it- Waterman has committed an error in saying what he did- I have Reasons for writing this which you shall have at a more convenient season - It is dark & the mail is one no-

Your paper did not come in this mail - There's a "sermo loose" somewhere. But to my object in writing this note - The Clatsop folks are about to raise h-c about the two paragraphs in "Go. So.?" paper concerning the loach. The Clatsop people are honest & right & Ingers articles false & infamous. Don't let the "Times" lead you into the matter - Wait, and you'll hear all about it. Waterman has committed an error in saying who he did. I have reasons for writing this which you shall have

at a more convenient season - It is done & the mail is on the
