To morrow morning 9 o'clock the court adjours here. Today there was a mongrell meeting here on the subject of the present Territorial difficulties. Resolutions were passed. You will receive them for publication. Applegate drew them up was chairman of the committee. Boise made a good speech, I was unwell and very hoarse, and said but little, rather a fissle. I did not like the character of the meeting very well. They are doing all they can here to establish a whig party, and stand upon the popular side of this question to begin upon. Charles Culver is here. Came this evening. He is going to start a press at Scottsburg, whig of course. Applegate is in the movement, and how far Judge P--- is concerned I cannot say, but evidently has something to do with the same. Some present personal good may come to him out of this movement, but as to the future no one can mistake the policy, and its consequences. There were a good many whigs at the meeting, the resolutions relative to the press were principally intended for the Oregonian, but not entirely, This the public cannot understand. No business has been done here, of importance. The Grand Jury found no indictments. Pratt received a letter from Gen Lane: The dates Jan 17th. Is entirely satisfied relative to "Yamhill" on the location question, and thinks it is the only view that can be taken of the question by the Democratic party. Goes strong for organization. Tomorrow I start for Winchester.
