

Salem Jan 21st 1853

Genl Lane

My dear Sir,

I hope before you leave Washington you will secure the removal of the present Post Master in Lafayette. He is a bitter whig and his removal is expected and desired by the Democrats generally and many whigs. I would suggest for his successor Warner Breyman. The latter is a sound democrat, a young man of good business habits, engaged in the mercantile business. It is of importance to us that the post office should be taken from the present incumbent before the next election, as the office is now and will be used against us for political purposes. I hope you will not fail to give this matter your attention.

By this mail you will receive a letter from all the democratic members of the Assembly recommending Genl Palmer for Superintendent of Indian affairs. You know his qualifications & my views in relation to it. One thing I must say that the signatures to this recommendation were not made from motives of policy or courtesey. It is I believe their honest and sincere wish that the appointment should be made in pursuance of the recommendation.

The Assembly is still in session. Among other things, we are doing a little at delegate making. The whigs in the house have succeeded in tampering with a sufficient number of our soft democrats to frequently command a majority in the house, this is used not for the purpose of facilitating business but retarding it, intending to claim hereafter that the democrats had a majority and are accountable for the management of business. The Council is almost unanimously dem and is particularly odious to the whigs. Nes was here a few days since we had a fine time. He is still the same old Nes the best of fellows and the prince of blackguards.

It has been decided to hold the convention on the 2d Monday in April I hope to see you here by that time either as Governor or a candidate for nomination whichever you desire.

This letter is confidential.

P. S.

In my last I recommended you to go for certain petitions for office that would be sent you. There has been a good many got up since on the same comb principle that I do not desire to include. There is a material difference between a petition being agreed upon by the members independent of the applicant and circulated by his friends and the applicants soliciting names in person and men signing them through courtesy. I will mostly add of the former class and those intended by my last are the names of Gen. Adams, Gibbs, Eby, Abney, B. F. Stearns, Gent. Tom. Among the latter class there are a few I will allude to McConaha, McCabe, Porter, Ford et id omni generis.
