

Lafayette Feb 10th 1853

Dear Bush

I did not get home until Monday evening. I travelled in a skiff to Dolkes ferry. From there afoot to George Gays and thence home a horse back. I find public sentiment very fair here and have the gratification to feel that I have made many friends this winter, who had heretofore been estranged upon the seat of government question. A great many young men who are whigs say publicly that they will vote for me for delegate against any other man. Those petitioners and their friends are down on F Martin and Stark about that county line. Moltney promised me to call and talk to you about it as he went down, and I hope you will notice it. Send me your acc. against Wm Johnson of this place and stop the paper. He is going away, and wants to pay up. I had a very fair understanding with Olney before I left Salem. He is all right. Harding says he can be relied upon. Also with Boon, Satisfactory.

Dear Bush.

I did not get home until Monday evening. I travelled in a skiff to Dokes ferry. From there afoot to George Gays, and thence home a horse back. I find public sentiment very fair here and have the gratification to feel that I have made many friends this winter, who had heretofore been estranged upon the seat of government question. A great many young men who use whips say publicly that they will vote for me for delegate against any other man. Those petitioners and their friends are down on F Martin and Stark about that County line. Mr Henry promised me to call and talk to you about it as he went down, and I hope you will notice it. Send me your aff. against Wm Johnson of this place and stop the paper. He is going away, and wants to pay up. I had a very fair understanding with Olney before I left - Salem. He is all right. Harding says he can be relied upon. Also with Burr. Satisfactory.

A Bush
