Friend Bush

Your favor per finis received after I had written you a few lines in reply to yours by Barnhart-

I have seen Demison upon the subject of your letters, and find that he will be all right, unless they use influence with him that I cannot now think possible. I have written Jackson a note upon the subject, he being all right and down on the faction I could safely write, and that to in order to post him, in regard to what is going on. Brown is the only man that they will have any show to get from this county, but I have three or four together with myself to work upon him, and no doubt he will be all right, at all events I shall see him the coming week and let you know the result. John Harris is a good Democrat and was a member of the Convention that nominated Lane & I think after the course pursued by the Standard in that canvas, no friends of Lane will support him I am sure.

If I can leave home I shall pay you a visit the 2nd week in July.

Yours truly
