

Portland July 27, 1855

Friend Bush

I had hoped to have been able to have sent you some word in regard to the new gold discoveries, but as yet we have had nothing definite- yet in the absence of any further intelligence parties are starting every day, almost from this section of County for these new mines. I will forward whatever Wilson brings in the way of news by first opportunity-

Nothing of interest in this part of the County-

Yours truly

Norris
