Dear Dush

Enclosed you will find the opinion of the Supreme Court in the case of Moore vs Thomas et al.- I have thought that its publication in the papers would perhaps be productive of good as it relates to questions in which all are concerned.

I have noticed that our people are very neglectful about the conveyances of land, & the publication of this opinion will serve to call their attention to the necessity of having deeds properly attested acknowledged & recorded.

If you think it worth while to publish it perhaps an editorial allusion to its importance would not be out of place. All well

Yours truly
