

Olympia W. T. Sept. 7, 1855

My Dear Sir, I have been studying for sometime how I should make a raise sufficient to pay you up- It is a de---nd hard case, and I blush to confess that it has been mine, that a grown up live man cannot within the space of twelve months make money enough to pay such a debt as yours- Half a dozen times tho, since I landed in this place I've had the mony in My fingers and said it should go to Bush certain- but just about that time some other claim would come down on me and take it. If you have ever been flat broke and in a broken community, you can sympathize with me- But it will not be right always. I've now got into regular employment by which I hope to be able to make the raise within two or three months more- Please write me how much I owe you in all John's order & all-I've forgotten and if you should chance to see Mr. Smul of Salem ask him if he ever made anything out of the goods wares and merchandise left by John with that fellow May I believe-He, Mr. S. sent me a letter from May saying their value was \$42-and that he (May) had left them with I. W. Robb - I asked Mr. S. to appropriate their proceed if there was any to the payment of our debt to you-

John A. is in Huntsville Texas - He is Married and seems to be happy and satisfied with his situation. He tells me the county is the very Eden of all gods creation. Our friends there are all perfectly enamored of the county. Hope John will make his pile. If magnanimity, generosity, and real nobility avail anything I feel confident that he will. He always wishes to be remembered to you, and says he would be pleased to hear from you.

Your Stillacoon and Olympia correspondents are sensible men. The Democracy in this county were badly gulled during the last canvas, and it came near causing a defeat. Hope it will teach them a lesson which will never be forgotten. I do not think the same gullibility was ovined throughout the other counties in the Territory. Here is the headquarters of Whiggery and of course Thuggery was most successful where its older brother existed in the greatest prosperity. I now feel as if I am settled here for about four years and I'm going to dive in to all sich - give us your effectual aid whenever you can. You see our Majority has grown to 176 since all the returns have come in. Under the circumstances it is a triumph.

My feelings to McCracken - et id omere -----

Yours truly

Butler P Anderson.

Asahel Bush Esqr.  
Corvallis  
Oregon

There is no news of interest. Every man in our community is all anxiety to hear the report of some returned Colville miners. Rumors from the mines as thick as the Oregonian ever invented are travelling through the county, and about the same attention is being paid to them that is usually given to that sheet.

Corliss has recd his commission as Marshal

Olympia W. T. Sept. 7. 1853

My dear Sir,  
I have been studying for some time how I should make a raise sufficient to pay you up. It is a damned hard case and I blush to confess that it has been mine that a grover up here man cannot within the space of twelve months make money enough to pay such a debt as yours. Half a dozen times this since I landed in this place I've had the money in my fingers and said it should go to Bush's claim - but just about that time some other claim would come down on me and take it. If you have ever been flat broke and in a broken community you can sympathize with me. But it will not be right always. I've now got into regular employment by which I hope to be able to make the raise within two or three months more. Please write me how much I owe you in all John's orders & all. I've forgotten. And if you should chance to see Mrs. Child of Solon ask her if he ever made anything out of

the goods loans and merchandise left by John with that fellow May I believe. He, Mrs. S. sent me a letter from May saying their balance was \$42. and that he (May) had left them with Mrs. Robb. I asked Mrs. S. to appropriate this proceeds <sup>if there was any</sup> to the payment of our debt to you.

John A. is in Huntsville Texas. He is married and seems to be happy and satisfied with his situation. He tells me the country is the very Eden of all God's creation. Our friends there are all perfectly enamored of the country. Hope John will make his pile. If magnanimity, generosity, and real nobility avail anything I feel confident that he will. He always wishes to be remembered to you, and says he would be pleased to hear from you.

Your St. Louis and Olympia correspondents are sensible men. The Democracy in this country were badly quilled during the last campaign, and it came near causing a defeat. Hope it will teach them a lesson which will never be forgotten. I do not think the same guiltiness was evinced throughout the other counties in the Territory. Here is the headquarters of Whiggery and of course Whiggery was most successful where its elder brother existed in the greatest prosperity. I now feel as if I am settled here for about four years and I'm going to diver in to all

rich - Give us your effectual aid whenever  
you can - You see our Majesty has grown  
to 176 since all the returns have come in -  
Under the circumstances it is a triumph.

My feelings to Mr. Cracker et id omne genus  
Yours truly  
Butler P. Anderson.
