

Deer Creek Sept. 24th, 1855

Mr. Bush,

Sir, enclosed you will find a short dissertation on a subject which I think all of your readers will feel an interest in. (The subject I mean, not the piece itself). I have written it partly for my own improvement, and partly because I thought the times called for something of the kind, as I notice quite a proclivity in our people to create a multitude of High Schools to the neglect of the Common Schools. If you think my effort worthy of publication you are welcome to it, otherwise you can lay it under the table.

Very respectfully,

James M. Pyle
