Friend Bush,

An express reached here last night bringing the Governor ———
——— from Portland I send you enclosed a few extras from the
Standard office. I have not time to write much to at this. If any men
up your way wish to volunteer, they had better hurry right down here, as
we wish to raise a company in a hurry, urge them up to come. I think
from the prospect we will raise a good company, a good deal of feeling
is manifested. I will write you again by the first opportunity and let
you know how we get along in raising a company

Yours
