

Dear Bush

I send you a line to keep up our end of the gossip- There is nothing to write about.

I heard today that Carter has been appointed Receiver in the place of Lawson. I must say that I never was more suprised in my life then to hear it. Upon what ground is it made? And for what purpose? I think it is damnable- in the extreme, and if there was a remedy at hand I would pronounce it intolerable at once. I expected Lawson would go out, but he is superior, for that office, to Mr. Carter, in every possible particular. I have nothing particular against Mr. Carter personally-- but he has no business out here. What next ? I have noticed this in the letter--if it is against your wishes act with it as with your own matter- I think it should be hit though--and severely--

Dear Bush

I send you a line to keep  
up our end of the gossip. There is nothing to  
write about.

I heard to-day that Carter has been appointed  
Receiver in the place of Lawson. I must  
say that I never was more surprised in my life  
than to hear it. Upon what ground is it made?  
and for what purpose? It think it is  
damnable in the extreme, and if there  
was a remedy at hand I would pronounce  
it intolerable at once. I expected Lawson  
would go out, but he is superior, for <sup>that</sup> ~~that~~  
office, to Mr Carter, in every possible par-  
ticular. I have nothing particular against  
Mr. Carter personally - but he has no business  
out here. What next? I have noted  
this in the letter. If it is against your  
wishes act with it as with your own  
matter. I think it should be hit  
through and removed.
