Dear Bush

In addition to the amt. I named in a former letter, I have recd. five dollars from John Vallely (Irishman) he says he told you to send the paper to his brother somewhere; I don't recollect where, I will send the whole amt. collected \$20 by the boat tomorrow, and I suppose it would be as well to take my advertisement out as I will not probably change it, at that distance, I will receive and receipt. for all subscriptions and other matter that may be paid to me, and forward you the money. I am fearful that Convention has gone in, but I have a small bet on it -- but I guess its lost. "So must it be." Our old friend Avery Stile noses about through town, and says the country would be ruined with a State Government.

He is getting to be a curiosity in town and I am told the sons of Temperance are going to hire him to stick himself in a cafe and show his nose to the audience, at two bits a pop, its that the project will pay -- no news except McTeeny has arrove in town.

Yours Truly
