

Deer Creek April 23 OgT 1856?

Friend Bush

Yours containing Huntley receipt is at hand--enclosed find
2½ for which send Statesman to D. A. McTavish (D. A. McTavish) New York
City, for six mo's.

Am afraid you took my joke concerning the Barkwell matter
rather more seriously than I intended-- I was merely quoting those
"quacks" you speak of-- as well as others of the same ilk of course
I knew how the matter stood--what I said merely being a little fun at
your expense. Ask ten thousand pardons if it should not have been done.

No news this way worthy of attention- expect to hear soon of
a battle out South. Am sorry convention is "gone in"--people out here
are too damned picayune to support a state. Hope the time will come
when they may want it and unable to get it.

Yours truly

Am afraid you took my joke concerning the Barksell matter rather more seriously than I intended - I was merely quoting those "quacks" you speak of - as well as others of the same ilk - of course I knew how the matter stood - what I said merely being a little fun at your expense. Ask ten thousand pardons if it should not have been done.

No news this way worthy of attention - expect to hear soon of a battle out South. Am sorry convention is "gone in" - people out here are too damned prejudiced to support ^{a state} one. Hope the time will come when they may want it and unable to get it
