Dear Chick

Your blackguard scrawl of the 17th ult came to hand by the last mail. On reading the proceedings of the meeting in Portland to stop the sale of government property, it occurred to me it might be well to make fun of them. The enclosed is the result. Whether I've done it or not you can determine. The names of the committee and secretaries I have paraded you will see. I suppose you will conclude by this time that I've got the "scribbling itch" bad. Well have patience I am coming round to Eugene soon.
