Friend Bush

Some days ago my attention was called to an advertizment, by Dewey, in one of the SF papers, for a pressman & compositor for you. There is a young man in the Union office who is anxious to go to Oregon and He is said by the foreman to be a No One

I have forgotten his name but if you need him a like dripper to me or of the Union will find its way to him. I have no doubt he would go up and I think he would give satisfaction.

While I am upon the subject I may as well ask employment for another individual with whom I have more interest. I have a Bro. Rik in the Union office, who would come up should you need his services at the Convention, and are willing to pay him two hundred dolls. a month. I would like to have him come for he would help me to down my cows; Accept my thanks (poor pay) for two of the Statesman send to my present address.

Friend Bush -

Some days ago my attention was called to an advertisement, by Dewey, in one of the S. A. papers, for a pressman & compositor for you & there is a Compositor in the Union office who is anxious to go to Oregon and has at his command Swift & he is said by the Foreman to be a better workman but employment here for the best of workmen is very precarious enough & I have forgotten his name but if you need him a like address to me or Mr. Wagon Co of the Union will find its way to him & I have no doubt he would go up and I think he would give satisfaction & while I am upon the subject I may as well ask sufficient - ment for another individual in whom I have some interest & I have a Bro. Robt in the Union office who would come up should command his services at the convention, and ~~will~~ willing to pay him two hundred doll. a month & I would like to have him come for he would help me to draw down my Co's. Accept my thanks (for pay) for two Co's of the Statesman sent to my present address &

Yours
Patt Malone
