

At Home, Feby. 17th, 1868.

Friend Bush,

If the enclosed is of any service publish it. If otherwise destroy it. As you know it is no novelty to me to appear in print. Say nothing about the authorship.

Our son Willie has recovered from his serious illness - the typhoid fever.

I go down tomorrow, if I can catch a boat, to get the democrats to call a Convention in our County. Our County Committee I infer have turned tail. When down there last, for fear of this, I drew up a notice and left with our friends to get names to it and publish. If I can get none to sign with me I shall call a convention on my own hook.

I think Kelly will be the opposition candidate for Governor, that is provided he stands firm on the "National" side. I presume he brought about the defection of Collard and Gilliland.

If I am wanted officially at Salem, my friends must let me know. I recently wrote to Ben Harding and am expecting an answer.

Say to Judge Boise that I will attend to that matter of McCune's appointment as Notary Public when I am next at Salem. I had understood he wasn't very reliable. I have been misinformed doubtless.

Yours, always Sincerely,

Geo. L. Garry.
