

Fairoaks May 7th 1858

Dear Bush

Having just got through with what your countrymen call the "chores", I propose to drop you a few lines. I think you witnessed the culminating point of the opposition to yourself in Jacksonville. The patient is hardly sick enough for another convulsion and I think will grow healthy all the more rapidly on account of being relieved from the long pent up bile on the stomach. Reliable Democrats are being stirred up to greater efforts for your success than they might otherwise have been. John I Miller told me when I left there that he was going home to work for your election from that on. The Grand Jury have indicted a lot of Charleys old confederates in Jackson for horse stealing, and house breaking and I am compelled to go back to Jackson and beg them. Trial sittings will commence on May the 23d There are no Indians to lay it too now, and so the Devil is getting his own. (Private) Had court at Roseburg this week. Jo Teal was at Roseburg one night. He gave Gordon the best Bully gagging about you that he ever got. Gordon finally dried him up by promising to support you but I cannot say that it is certain. I think he regards it in the light of a promise extorted from him. One thing I am certain. He will not vote against you. Jo talked for you manfully and pitched into "O Mary" like a red hot ploughshare. (I believe that last comparison is biblical) if so refer it to the amiable Doctor I believe he once studied for the ministry.) "By the way" some of Drews plans about the "Seonate" are begining to leak out here. We have dried them up I hope. He writes more letters, writes them more indiscriminately and sometimes more indiscreetly than even did O.C.--

Stratton was here yesterday and brings a good account of your progress in Lane and of the explosion of the Nationals in Benton. He goes to Coos and Curry today to look after your votes in those counties. This is right and proper a reperation, for a reliable friend of mine informs me that when he and Gordon went to Eugene to electioneer for L- nomination, that L- run with the current about Eugene agt Bush Salem clique and to say the least of it washed his hands of the myth and all its iniquities. I think the county ticket in Douglas is safe. Whitted for sheriff will have the hardest race, although about the best man on the ticket and running against the meanest man and politician in the county, - John Fullerton. They have nominated a pretty good ticket in Jackson, Berry Brown and Newcomb among the old ones for the assembly. Biggs is running for county judge. Tolman a whig and very popular man is running against him and in any event will give him a hard run. Wallon has bolted and is running as the candidate of the nationals for clerk. This is the last of him.

I shall make good use of OMarys admission on Long Tom that he opposed the introduction of slavery in Cal in "L.G. I hope by all means that Nesmith will be through this country before election.

Your friend,
Deady

Fair Oaks May 7th 1858

Dear Bush,

Having just got through with what your countrymen call the "Chores," I propose to drop you a few lines. I think you witnessed the culminating point of the opposition to yourself in Jacksonville. The patient is hardly sick enough for another convulsion and I think will grow healthy all the more rapidly on account of being relieved from the long pent up bile on the stomach. Reliable Democrats are being stirred up to greater efforts for your success than they might otherwise have been. John Miller told me when I left there that he was going home to work for your election from that on. The Grand Jury have indicted a lot of Charley old confederate in "Horse stealing and House breaking" and I am compelled to go back to Jackson and try them. Trial sitting will commence on May the 23^d. There are no Indians & lay it too now, and so the Devil is getting his own. (Private) Had court at Roubury this week. John

was at Roubury one night, he gave Gordon the best Bully ragging about you that he ever got. Gordon finally creeded him up by promising to support you, but I cannot say that it is certain. I think he regards it in the light of a promise extorted from him. One thing I am certain, he will not vote against you. So talked for you manfully and pitched into you "O'Many" like a red hot ploughshare. (I believe that last comparison is Biblical, if so refer it to the amiable Doctor I believe he once studied for the ministry.) "By the way" some of Brews plans about the "Senate" are beginning to leak out here. We have dried them up tho'. He writes more letters, writes them more indiscriminately and sometimes ^{more} indiscreetly than even did O.C. —

Shallon was here yesterday and bring a good account of your progress in Lane and of the explosion of the Nationals in Benton. He goes to Coos and Curry today, pluck after your votes in those counties. This is right and a proper reparation, for a reliable friend of mine informs me that when he and Gordon went to Eugene to be chosen for S - nomination, that S —

run with the current about Eugene
agt Bush Salem blizer, and to
say the least of it wash his hands
of the myth and all its iniquities.
I think the County ticket in Douglas is
safe, Whittier for Sheriff will have the
hardest race, although about the
best man on the ticket and running
against the meanest man and politician
in the County - John Fullerton. They
have nominated a pretty good ticket
in Jackson, Perry Brown and New-
comb among the old ones for the
Assembly. Pegg is running for
County Judge. Wolman a very
and very popular man is running
against ^{him} and in any event will
give him a hard run. Walton has
bottle and is running ~~for~~
as the candidate of the Nationals
for Clerk. This is the last of him.

I shall make good use of O'Many's
admission on Tony Tom that he op-
posed the introduction of Slavery
in Cal in '45. I hope by all means
that O'Many will be through his
country before election.
