Dear Bush

Miller leaves here in a moment and I have just time to add a word as he will tell the outside story. This county has gone for the Nationals in toto about 100 Maj. I should not be surprised if you were beaten 150. Old Bill says he knew it would be so when you were nominated. You ran better with the ticket than was expected by any of them. Jackson has gone against you by about 150, which compared with what the Nationals had given them in the game there is a real triumph. You beat one of the candidates for Printer there (Kelly) out of sight. I think John Miller done you good service there. I left there Saturday before the election.

I think you are elected. I hope so at least, for if not from the tone of your threatening letter I shall expect a fight when first we meet. I think that letter is indictable under the statute agt threats.

Yours in haste
