

Umpqua City, Ogn. Sept. 20th, 1859

Dear Bush

Enclosed I forward the card of Dr. Quinan U.S.A. our new Surgeon at this post. He wishes you to insert his card for three months and enclose bill to me and I will collect and forward or you can enclose directly to him, as you prefer.

Lord of Umpqua, Flanagan of Coos and Ruffner of Curry, all insist that I shall go to Eugene and be proxy for them and I suppose I shall have to go, as no one else will spare the time or money to make the trip.

They think I am all right and prefer to have me act for them. I dislike always to be proxy for these conventions, especially as Avery says I am very unpopular out here and that I do not reflect the sentiment of this neck of woods. Joseph thinks so too.

In haste

Drew

P.S. Got a letter from Beggs this last mail. Much obliged to him for it. Will write him from Eugene.

Oh! Dr. Q. wishes his card stuck in a prominent place in your valuable and widely circulated sheet. He won't advertise in any other of the numerous Oregon journals, as I have informed him that your paper is the only one of "general circulation" except Delazon.

They think I am all right and prefer to have me act for them - I dislike always to be proxy for these Counties, especially as Arny says I am very unpopular out here and that I do not reflect the sentiments of this neck of woods. Joseph thinks so too. In haste
