Dear Bush

Your favor of 2nd is at hand I have not yet learned whether Stark has returned on this steamer or not but think (hope) he has. Will make a d---a big effort to get that money out of him---I have thought of the same frequently. How will a man respond to principal when he is to cursed slow on interest---Will try and get that money from Cole--d--a their souls. They have run me into a tight place my house is nearly completed and bills on it becoming due---and I have been calculating on them for the money--How about that other money Can you send me \$500 which will make the \$2000 When I collect what is and will be due from them, if you could it would be an extensive accommodation--devilish ingenious that about Douthitt wasn't it?--You are a "tuff cuss"---- Will give you the items you desire that is with the help of McMillen--who will give them to me and I will do the penwriting---he is more in the of that thing than I am---Nothing of interest now--Morris has given you a history of the late Convention----

Yours truly

Jno McCracken
