Dear Bush

With this I send you a vol. of De Poe containing the life of Moll Flanders and the political history of the Devil. I have two copies. It is a high old book to be written by a Presbyterian, that came near being a preaching bother.

Mo has a correspondence in the Bulletin that came the first of this week contain--an account of the setting down that Newell gave Nes in the Provisional Assembly on the "Merrons question" which would look well in the Statesman
