Dear Bush

Dr. Hawthorne was in today to see if I had heard from you about the Greenbacks. I have not and told him I would write you this evening. I have no doubt but that the Dr will do as he says. Pay you the face of them in gold in a year unless he and Lonjea and Jimmy Stevens all die, and the matter passes into the hands of the law to settle, and that is not very probable. He may write you himself, and if so you can answer, but if not write me.

Yours

Deady
