Dear Asahel

Yours of 27th June I reeded about a week ago. Thanks for your kind attention to the matter of road tax. I once before wrote you that I have lost the run of my Bank account. I fear I have overdrawn - if so must right it with interest. Expect to have money deposited in a few days. Am glad your business is in good shape and money plenty - was sure it would be so. But the farming community cannot get much money - the prices for their truck all to low.

The Magazine I was glad to get and read it all - Old man Gilbert most interest. The Tariff discussion is becoming a little old. Yet the map of the voters seem not to understand it very thoroughly, and probably never will.

I know very little about it more than it is a system of taxation, and I don't like to be taxed. And am particularly opposed to it when the tax is for some other mans benefit and called \_\_\_\_\_.

Danl has been making hay all the last two weeks, very busy - will get done with it in two or three more days. Have had no mail the last week and I am hungry for news. Will get it today I hope.

Truly Your Friend

B. F. Harding

Respects to Claud Bardsley & Hugh and particularly to Your Father. Will write him soon.
